OFFICE FINANCIAL POLICY

It is our goal to make the financing of dentistry comfortable for all our patients. We realize that dentistry may be expensive. We feel that the following options will meet the needs for our patients.

1. A 5% reduction in your fee if you pay for services in advance of treatment with an amount \$3000.00 and higher.
2. Payment by the appointment. This option lets you spread out the payments according to your treatment plan.
3. We accept American Express, Care Credit, Bank One, MasterCard, Discover and Visa.
4. Layaway Dentistry: A patient may deposit dollars ahead into their account. This way, once enough dollars have been accumulated, a patient may then have procedures completed as needed.

Regarding Dental Insurance:

We will be happy to submit your treatment to your insurance company, as long as you have provided us the appropriate insurance information prior to services being rendered. We will expect co-payment due at the time of each service.

If you have any questions you may ask our business team. We are here to help you out.

I have read and understand the above statements.
